

Shahzeb Iqbal

I am a Java developer specializing in Spring Boot, Docker, Kafka, and Kubernetes. My passion lies in building event-driven systems that are both efficient and scalable. With hands-on experience in these technologies, I enjoy crafting resilient solutions that drive innovation in the software landscape.

EXPERIENCE

Timestream Management and Solutions , Dubai (Remote)—Software Engineer

January 2023 - PRESENT

I specialize in creating robust RESTful APIs, essential for seamless user experiences and our solution's foundation. With expertise in Azure, I craft optimal software environments.

In the dynamic tech world, I master tools like Kafka, Kubernetes, Docker, and Spring to build resilient microservices, orchestrating them like a conductor. I'm not just a Backend Engineer; I'm an architect shaping Timestream Management and Solutions with innovation and excellence.

Sapphire Consulting Services, Jamshoro — Part Time Backend Consultant

June 2023 - PRESENT

In my role as a Consultant at Sapphire Consulting Services, I wear multiple hats to contribute to project growth and success.

I specialize in crafting secure RESTful APIs, designing robust architectures, and automating deployment processes. This journey represents my dedication to excellence in software development, shaping the future of technology and innovation.

Sapphire Consulting Services, Jamshoro — Trainee Consultant

August 2022 - January 2023

During my six-month tenure as a Trainee Consultant at Sapphire Consulting Services, I've gained valuable experience in consultancy.

I've worked on diverse client engagements, analyzed business challenges, and benefited from mentorship by seasoned consultants.

I've also conducted industry research, enhancing my critical thinking and teamwork skills. This experience has reinforced my commitment to a career in consultancy, and I'm eager to continue making a meaningful impact.
